

PRESS RELEASE

Kahnawà:ke Sustainable Energies hold Information Session for citizens of Saint Cyprien-de-Napierville regarding proposed wind farm

FOR IMMEDIATE RELEASE: Kahnawà:ke (June 4, 2014) Kahnawà:ke Sustainable Energies (KSE) will be hosting a public information session for the citizens of Saint Cyprien-de-Napierville regarding the wind farm proposed in their community. The event will take place adjacent to the proposed project site in Saint Cyprien-de-Napierville on Thursday June 5th from 6:00 to 9:00 pm. Visitors will have the opportunity to meet the project promoters and various experts in the field to ask questions and present their comments. Representatives from KSE, Tewatohnhi'saktha, and Chief and Council will be present to meet the citizens.

KSE has an energy supply contract with Hydro Quebec Distribution to develop a 24 MW wind farm with a target delivery date of December 2015. After all studies are completed and submitted, the project will be evaluated. The government of Quebec has the final decision regarding project approval.
