

## PRESS RELEASE

### FOR IMMEDIATE RELEASE:

**Wind farm project in Saint-Cyprien: CPTAQ authorizes the establishment and operation of the wind farm by Kahnawà:ke Sustainable Energies**

**Kahnawà:ke**, June 15, 2016 - Kahnawà:ke Sustainable Energies welcomes the decision of the Commission for the protection of agricultural land in Quebec (CPTAQ) relative to the wind farm project in Saint-Cyprien. The CPTAQ issued its decision to allow the construction and operation of the wind farm, once all the authorizations and permits required will be obtained.

Recall that the wind farm project was developed in such a way as to reduce the impacts on the territory and on agricultural activities. Improvements to the project made during the development process are the result of collaboration with the farmers who will host the wind turbines on their properties and suggestions made by participants in the consultation process.

The favorable decision of the CPTAQ is an essential milestone towards the authorization of the project by the Government of Quebec. Kahnawà:ke Sustainable Energies is currently awaiting the Quebec government's decision in relation to its wind farm project in Saint-Cyprien.
