

JOB OFFER – Woodworking Machine Operators

Company Name: Vizusolution Inc.

Company Address: 344 Ave Hamford, Lachute, QC CA, J8H 3P6

Job Title: Woodworking Machine Operators (NOC 94124)

Main Duties:

Operate an automated melamine press at optimal efficiency.

Check work to ensure compliance regarding bonding quality, paper surface condition, and other applicable standards.

Load the machine with wood panels and melamine paper.

Prepare melamine paper concurrently with production.

Launch production using proprietary production software.

Adjust the bar code label applicator.

Manually operate robots when necessary.

Perform mechanical adjustments based on the thickness of the panel being pressed.

Remove and install press plates.

Adjust the positioning of the melamine paper.

Handle raw materials and finished products using a forklift.

Provide necessary information to colleagues assisting with press operations.

Package melamine bundles where applicable.

Maintain a clean work environment and eliminate potential accident hazards.

Oversee preventive maintenance of equipment; perform adjustments or repairs within one's scope of competence; and/or report any mechanical or electrical issues to the supervisor that could pose health and safety risks or lead to production downtime.

Actively participate in continuous improvement meetings.
