Posting date	August 25, 2026	Apply by	September 25, 2026
Job function	Engineering and Finance	Industry	Construction and Civil Engineering

About Capital Crossing Constructors

This position is being posted under Capital Crossing Constructors (CCC), a joint venture comprising Webuild, Samsung C&T, and Green Infrastructure Partners. CCC is leading the Alexandra Bridge Project, a landmark infrastructure initiative connecting Ottawa and Gatineau. We are committed to delivering this complex project with a strong focus on safety, environmental responsibility, collaboration, and regulatory excellence. Our team works closely with partners, stakeholders, and communities to ensure the project is delivered with care, respect, and long-term impact.

At Capital Crossing Constructors, we value diverse perspectives and foster an inclusive, team-oriented environment where people can contribute meaningfully to building infrastructure that serves future generations.

About the Project

The Alexandra Bridge Replacement Project is one of Canada's most significant infrastructure initiatives, replacing the existing Alexandra Bridge that has connected Ottawa, Ontario, and Gatineau, Quebec for more than 120 years. As a vital interprovincial transportation corridor within the National Capital Region, the bridge serves thousands of pedestrians, cyclists, motorists, and transit users while forming an integral part of Confederation Boulevard. Having reached the end of its service life, the existing bridge will be replaced with a modern, resilient crossing designed to meet the region's long-term transportation needs.

About the Job

Reporting directly to the Chief Estimator, the Junior Bridge Estimator will support the preparation of accurate and competitive cost estimates for bridge construction and rehabilitation projects. The successful candidate will assist with reviewing project drawings and specifications, completing quantity take-offs, gathering pricing, and preparing bid documentation. This role is ideal for an early-career professional looking to develop estimating expertise within major bridge and civil infrastructure projects.

Duties and Responsibilities

- Review project drawings, specifications, and tender documents to understand the scope of work.
- Prepare quantity take-offs for bridge components, including concrete, reinforcing steel, structural steel, foundations, and earthworks.
- Assist with developing cost estimates for labour, materials, equipment, and subcontractor services.
- Obtain and review quotations from suppliers, subcontractors, and vendors.
- Support the preparation of competitive bids, proposals, and tender submissions.
- Maintain organized records of estimates, quotations, assumptions, and supporting documentation.
- Assist in identifying potential risks, cost impacts, and scope gaps during the estimating process.
- Work with engineers and project teams to clarify technical requirements and design information.
- Participate in site visits, pre-bid meetings, and project handover meetings as required.
- Support constructability reviews and value-engineering exercises.
- Research current material pricing, labour rates, equipment costs, and market conditions.
- Assist the Chief Estimator and senior estimating team with bid reviews, estimate updates, and other pre-construction activities.

Qualifications

- Bachelor's degree or diploma in Civil Engineering, Construction Engineering, Construction Management, or a related field.
- Approximately one to three years of estimating, construction, or civil infrastructure experience.
- Exposure to bridge construction, bridge rehabilitation, or major civil infrastructure projects is preferred.
- Basic understanding of bridge construction methods, structural components, materials, and specifications.
- Experience completing quantity take-offs and interpreting construction drawings.
- Familiarity with concrete, reinforcing steel, structural steel, foundations, and earthworks.
- Proficiency with Microsoft Excel and standard Microsoft Office applications.
- Experience with estimating and take-off software such as HCSS HeavyBid or Bluebeam is an asset.
- Strong numerical, analytical, and problem-solving skills.
- Strong attention to detail and organizational abilities.
- Effective written and verbal communication skills.
- Ability to work collaboratively and manage multiple deadlines.
- Eagerness to learn and develop within a bridge estimating environment.

Compensation and Benefits

- **Expected base salary:** \$90,000-\$110,000 per year. The actual base salary will depend on experience, qualifications, internal equity, work location, and market expectations.
- **Bonus:** Annual performance-based bonus.
- **Benefits:** Comprehensive group benefits program.
- **Retirement:** Retirement savings program.
- **Growth:** Career growth and advancement opportunities.

Our Commitment to Indigenous Engagement and Reconciliation

As proud team members of Capital Crossing Constructors (CCC), we are dedicated to fostering respectful, meaningful relationships with Indigenous communities and driving positive change through partnership and collaboration. We recognize that the Alexandra Bridge Project is located on the traditional, unceded territory of the Anishinàbe Algonquin People, and we are committed to honouring their heritage and culture through ongoing listening, learning, and partnership.

Our Indigenous Participation Plan (IPP) aligns with legal obligations and reconciliation efforts, including the Truth and Reconciliation Commission's Calls to Action and the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP). We strive for genuine, meaningful engagement emphasizing equity, cultural relevance, mutual respect, and support for Indigenous-led priorities. We are committed to advancing Indigenous business relationships and reconciliation and to fostering an inclusive workplace that supports Indigenous Peoples through equitable employment, procurement, and culturally respectful engagement.

Applicant Process

How to apply: [Apply directly through the LinkedIn posting](#) or email your resume to HR@ccciv.ca by September 25, 2026.

Cover letter: A cover letter is not required and will not affect the application process. Candidates are welcome to include one if they wish.
