

PUBLIC ANNOUNCEMENT

Parking Lot Expansion

FOR IMMEDIATE RELEASE: Kahnawà:ke (April 12, 2016) Tawatohnhi'saktha is currently constructing an expansion of the parking lot at the Kahnawà:ke Office Complex. The new lot will be located on Seaway land but it is adjacent to lot SLS 14-1-2. This work was considered a priority for safety reasons as many employees and visitors were parking on the side of the access road.

During the construction of the new lot, employees of the Office Complex will be parking along the seaway road. The construction of new lot will accommodate 60 cars and is expected to be complete within one week.

These works are an extension of the original Mohawk Council of Kahnawà:ke's authorization to use SLS 14-1-2. See attached for aerial view. The topsoil and rock will not be removed from the site, rather it will be pushed and graded eastward.

Slashcavation was awarded the contract for the grading and preparation, and the Mohawk Council of Kahnawà:ke's Capital Unit will be the contractor for the paving. The cost of the new parking lot will be shared by the Mohawk Bridge Consortium; Morris Mohawk, and the Kahnawà:ke Office Complex.
